BGCGS Health and Safety Requirements: Sports and Outdoor Recreation

April 21, 2021

Director for Operations – Madison Yock

It has been brought to our attention that safety protocols mandated by the Governor are not being thoroughly followed in current recreational sports.

As a reminder Linn County is in the High Risk category at this time. Therefore the following protocols are in place:

- 1) Wearing of properly fitted face coverings (until further notice, regardless of risk level). This includes athletes, coaches and spectators.
- 2) Spectators must be kept to a minimum - Maximum 15% occupancy. Bleachers have been marked with tape. Please stay within your household units and remain socially distanced.

Failure to comply with the Governor's mandates places the BGCGS Emergency Childcare license at risk.

Regardless of personal opinions, individuals who refuse to comply with the Governor's requirements may be asked to leave the premises/venue.

We ALL want our kids to have summer sports and recreation. We appreciate your understanding and cooperation.

Thank you,

A handwritten signature in black ink that reads "M. Yock".
